Car Plate Sale At the Deadline

Midnight Is the Final Time For Getting 1943 Plates on All Automobiles of Texas

There has been a regular rush on at the office of M. E. Cantrell, tax collector, this week as car owners bought their 1943 license plates in order to beat the deadline.

Midnight tonight is the time at which all cars must be equipped with 1943 license plates or the owners will be subject to a fine for operating without the proper plates.

Funeral of Miss Sallie Baird Is Held on Friday

The funeral for Miss Sallie Baird was held Friday afternoon at 3:30 o'clock at the Christian Church. Dr. R. C. Snodgrass, pastor of the First Christian Church of Amarillo, assisted by Rev. Joe Findley, pastor of the local Christian Church, were in charge of the services. Miss Baird was a charter member of the local church.

Interment followed in Dreamland Cemetery in charge of the Griggs-Thompson Funeral Home. Pall bearers were: Lee Foster, W. C. Black, Ray McReynolds, D. M. Foster, Hud Prichard and Guy Harp.

Miss Baird had lived in this county for 53 years, making her home with her brother, R. E. Baird, who holds the record of having the longest residence in the country. She was 85 years of age.

The only surviving sister, Mrs. C. W. Payne of Los Angeles, was unable to attend the funeral. Mrs. C. R. Flesher of Canyon and Mrs. Chas. Stephenson of Amarillo are nieces of the deceased.

Leslie Key Given Higher Rating as Water Executive

Leslie Key has received a certificate from the State Board of Health which raises his grade as water superintendent from C to B.

Mr. Key took the short course for water superintendents at A. & M. College, and was granted this increase in rating after successfully passing the examinations.

The state licenses superintendtendents whose records are such as to insure a pure water supply to the communities which they serve.

Mr. Key has been in charge of the water department of the city of Canyon for the past 3 years, and his work has been highly successful. Canyon is among the few towns of the state whose water supply is approved in every respect by the State Board of Health

Meats and Fats Are Now Under Program—Points on Many Food Items Changed

Wartime belt-tightening really hit home Monday as rationing of meat, butter and allied products began. New coupon costs on processed fruits and vegetables also went into effect.

The average American, who has been one of the world's biggest per capita consumers of meat could buy pork, beef, lamb or mutton only on the 16 points of the red A stamps in his No. 2 ration book.

Sixteen points will buy two pounds of steak this week—if it is available—but most people will want to use some of those points to buy other cuts of meat and also butter, lard, cheese, vegetable shortening, canned fish and salad oils.

The housewife may now buy prunes, raisins and other dry fruits and apple juice without coupons. She may also buy other fruit and vegetable juices and dehydrated soups at reduced coupon costs.

But the old standby of canned baked beans is higher in point value, and other increases made it more difficult to buy canned fresh lima beans, catsup, and canned applesauce, fruit salad and cocktail, peaches and pineapple.

Summarizing the kitchen rations in effect, the coupon situation is as follows:

Meat, cheese, canned fish, butter, lard, and other edible fats and oil—this week 16 points per person to be spent interchangeably for meat and the other items in this group.

The A stamps may be saved, if desired, and used any time through April 30 along with other red stamps becoming valid each week in that period. Expiration date of fifth week stamps has not been fixed yet.

Processed fruits and vegetables, canned soups and baby food—Through Wednesday, use blue A, B or C stamps in ration book No. 2, and at any time until the end of April also use blue D, E and F stamps.

Sugar—Stamp 12 in book No. 1 good for 5 pounds through May 31.

Coffee—Stamp 26 in book No. 1 good for one pound through April 25.

Game, poultry and fresh fish are unrationed. Also unrationed are soft cheeses (including cottage and cream cheese), milk, cereals, fresh

Randall County Will Be Called Upon For $93,000 in Second War Fund Drive

Randall county has a quota of $93,000 for the Second War Loan Drive which starts April 12.

The county is being organized for an intensive drive for the sale of these bonds during the month.

Bonds which will be counted on this quota are: All Series E War Savings Bonds, Series F and G Savings Bonds, Series C Tax Savings Notes, 7-8% Certificate of In- and 2½% Treasury Bonds.

All citizens of the county will be Til citizens of the county will be asked to buy as many bonds as possible during this campaign in order that the quota will be reached. The campaign calls for the sale of 13 billion dollars of bonds throughout the nation. In the first War Loan Drive the quota was far exceeded.

Chas. Duval Takes Over Office As Smith Transfers

W. L. Smith will report next Monday for his new work in Amarillo as accountant for the gas company. He has been succeeded as local manager by Charles Duval, who has been here the past week.

Mr. Duval started his work with the gas company in Canyon, serving under Mr. Smith.

He has been local manager at Levelland before being transferred to the local office. Mrs. Duval is teaching in Levelland, but will probably join her husband here in a short time.

Feed at Menke Farm Burned Monday p. m.

Three stacks of feed at the farm of Mrs. Martha Menke, north of Canyon, burned Monday afternoon.

The fire department was called to assist in control of the flames as it was feared that a shift in the wind would destroy the home and all farm improvements.

The fire started from a tractor during the afternoon.

Owing to the continued winter drouth, prairie fires have been frequent over the plains.

Preparing Court House Lawn for Seed Blue Grass

The court house lawn is being prepared to seed in the near future. The lawn was plowed up several weeks ago due to the fact that nearly all of the grass died last year.

Owing to the lack of winter moisture the land is being thoroughly soaked before the seed is planted.

Post Rules Are To Be Strict

Civilian Contacts Will Be Limited—Military Area Is Restricted

Organization of the Army Air Forces air crew training detachment neared completion Tuesday at West Texas State College instructors took over instruction of the personnel in flights of 40 men each. Each group is in charge of a flight lieutenant.

Captain D. L. Echols, commanding officer of the post, began issuing regulations for the conduct of the detachment in its relations with civilians. The campus is, in military language, "the post," and the men live and work in the "detachment area."

From Monday through Friday, the enlisted personnel is confined to the detachment area and there may be no civilian contacts except by telephone. Men are permitted to answer the telephones only on their free periods after supper. The business telephone, 432, is to be used only for business calls to members of the detachment staff. No social conversations are permitted through this number.

The paved street in front of Terrill Hall, Buffalo Courts, the outdoor swimming pool, and the auto mechanics shop has been declared a military road. All civilian and military motoring will be barred here. Moreover, civilians may enter this zone only on business. Signs designating the restricted area are being painted.

Captain Echols pointed out that the men are taking indoctrination training, with rules approximating those they will encounter in advanced flying posts. When moving in groups, the trainees are usually in formation. Whether at ease or marching, they must not acknowledge civilian greetings nor engage in conversation except duirng open post.

Civilians are being asked to refrain from entering the detachment area, afoot or in cars, and from addressing the trainees in any manner except during visiting hours. Within a short time a schedule of visiting hours will be announced. During these, the men may receive callers at the recreation hall.

Free periods will vary in time. Open post periods likewise will conform to changing schedules. In general, the men will be permitted to leave the detachment area only on Saturday afternoons and Sundays. They will not be permitted to accept luncheon invitations or other social engagements at other times. Their daily schedule requires that they be in their quarters at 9 p. m. Taps is sounded at 10 p. m. and lights are out at 10:30 p. m.

Exceptions are made in case of emergencies.

Classes for the trainees started Monday with schedules of some college classes being changed to make rooms available. The soldiers will attend class five times each week. Some classes will continue for twelve weeks and some for a longer time, according to Dr. A. M. Meyer, college coordinator of this new military program.

COAT HANGERS NEEDED

The soldier-students need coat-hangers immediately, states Virgil Henson, Business Manager of the College. Please leave any coat-hangers you can give to the boys at the News office, Jarrett Drug Store, or at any business office of the city.

IT MUST NOT HAPPEN HERE

Tragic stories of death from starvation and exposier in Europe are so commonplace that their horror has lost significance to many of us. But it should never be forgotten that lack of production is not the sole factor in the plight of Europe's millions. Europe has no organized distribution system. What few necessities exist are transported at the convenience of military authorities. Points of final distribution to consumers are places rife with disease and dirt. What a contrast to the distribution system of this country!

Retail distribution in America is scientifically organized. The principles are comparable to those of mass production. The core of modern retail distribution is the independent grocers upon whom the government depends to reach all the people. It is a formidable task.

Fair and adequate distribution can be accomplished. The record of retail merchants gives strong reassurance of that. However, they will need the utmost cooperation from the government and from the public. The government must do all in its power to simplify rationing and price regulations, just as it must recognize the essentiality of merchandising. The public can cooperate by being tolerant toward inexperienced employes and by avoiding the temptation to hoard non-rationed commodities.

The tragedy in Europe should spur us on to help our producers and distributors in every possible manner. We want no recurrence of that tragedy, in this country.

Furthermore, the retailer, if he is to continue doing the fine job which he is now performing should be free of harassment as far as possible, without unnecessary punitive regulations which only tend to handicap his efforts without improving his mission in the community.

The farm is now the haven for many boys who are seeking to evade military service. Many farmers are now complaining that some of these boys are now letting down on their work, and that the farmers are not able to get much work out of them. This is the natural result when Congress seeks to defer whole groups of men because of their vocations. There is just one way to handle this. One Randall county farmer handled it the right way. A boy whom he got deferred because of needed help let down on the job. The farmer fired him and reported the case to the Selective Service Board. As a result of the boy's laziness he will soon find himself in the army. The farmer was right in reporting the boy. Selective Service has extended the courtesy of giving men deferments who are essential to farm work. When a farmer secures such deferment, it is his obligation to see to it that the farm hand really makes a hand, and proves that he is necessary to the food production program. But, argues the farm hand, why pick on us when the government allows men in munitions plants to loaf on the job, and fail to show up for work when they don't feel like it? That is just the thing that has burned up the people of this nation for many months past. That is just the point that Congress is arguing about right now. That farm hands do not belong to any union, which will protect its members, may be the answer to why they must produce during this emergency, or be drafted in the armed services.

The fight of John L. Lewis for a $2 per day increase in the wages of his miners is a direct fight on the President. Lewis hates the President, and it is very evident that the President has no love for Lewis. The big labor leader determined to fight to a show down this time. If Lewis loses the battle, he will lose his leadership with the miners. Likewise, the President is determined that Lewis shall not win. Both men are hard headed. Of course the advanced wage could be paid with the operators raising the cost of coal to the consumer; likewise, the consumers, big munition plants, could raise the price of munitions to the government; the government could collect more money from the people—it's just that easy. But unfortunately, those consumers who are on set wages or salaries have no one to hijack for the increased cost of living because the increase in their fuel bill. This vicious circle of everyone raising his prices because the other fellow has hijacked him is the thing which starts inflation and keeps the cost of living mounted.

Everyone is talking about a hedge against inflation, but very little is being done about it. As a matter of fact, it makes little difference whether a man makes $1.00 per day or $10.00 per day; the only thing that counts is how much the dollar will buy after he gets it. If the dollar will buy only one-tenth of what it did a few years ago, the $10 per day man is no better off today than when he was while making a dollar per day. The trouble is that all of us like to talk in terms of a big income, regardless of what may become of the money. We like to look back over the years and brag about how much greater income we have today than we did 25 years ago. The money we make today may not buy half as much as the money we made at that previous date, but we forget to take this into account. There is something fascinating about handling big sums of money, and if inflation keeps on mounting the people of this country will have such a sad experience. Hitler got his start under inflation, when it took a wheelbarrow load of marks to buy a loaf of bread.

This country boy cannot understand why all this commotion about income tax payments for 1942. Just why should the taxpayer be forgiven for his 1942 taxes in face of the mounting national debt? We have listened with interest to the various arguments about forgiving this tax and starting all over with a larger withholding tax. The argument is that the government will not be able to collect the 1942 tax from millions of workers who receive big wages, but saved nothing with which to pay their taxes. Perhaps this is true, but just why forgive the entire tax for the year in the face of war needs? This would solve nothing, but would put off the payment day only until a later year. As it looks from this corner, the faster we raise money, the sooner will the war be won, and the sooner we pay our debts the sooner we will owe nothing. Continual discussion of the question simply adds to the feeling of uncertainty of the people.

The Governor of Colorado has decreed that no more farm workers will be inducted into the armed forces from that state. He says that he is head of Selective Service in Colorado. If this is true, then the Governor of California may say that all munition workers in his state are to be deferred; the Governor of some other state may decree that some other class of citizens shall be deferred; and so on. By the time the 48 states exclude the favorite workers, our army will be depleted and we will be in a fair shape to get hell whipped out of us. We cannot win the war without national unity, and certainly there has arisen plenty of hair pulling among various factions within the nation during the past few months, especially since the Republicans practically took charge of Congress.

Governor Stevenson advised the legislature at the opening of the present session that according to indications the state's deficit could be wiped out by observing economies. No reference was made by the Governor to the constitutional amendment which requires that the state go on a cash basis by Jan. 1, 1945. The legislature has taken no action to make this amendment effective. Attorney General Mann has ruled that the legislature must take action at this session to put the amendment into effect. Just what will be done about the situation is very uncertain. Those of us who doubted the wisdom of this constitutional amendment before it was voted may yet have a chance to say, "we told you so."

There is another bill in the Legislature to remit penalties and interest on delinquent taxes. It is getting so that it is positively unpatriotic to pay your taxes on time. The State of Texas has become so symapthetic toward tax dodgers that bills are introduced in every session of the legislature to remit taxes on the fellows who refuse to pay their taxes on time. This may be all right for the property owner who cannot pay, but it is a comfortable vehicle for thousands of tax dodgers who will not pay their taxes except when they can beat the State out of a lot of interest. As we have often said, let the government be fair to all of the citizens if it expects the people to be honest and fair with government.

The submarine menace is most clearly the big problem of the war. We cannot safely send more men overseas until we are assured that they will be supplied. Supplies and war munitions which are sunk by the subs do not help our fighting men, and do not get aid to our allies. It is indicated that Hitler is going to put most of his chips on the submarine warfare this spring. We can be prepared for a growing amount of bad news as the underseas monsters are set upon our shipping lanes.

The horse racing gamblers announce that they will insist on the legislature legalizing race gambling at this session. How perfectly sweet of that crowd! Naturally they did not say that racing has been banned in most states by the Office of Transportation as being against the public's interest.

Of course, two can live as cheaply as one. Both my wife and I live as cheaply as our kid in college.

PRESIDENT WES IZZARD of the Panhandle Press Association will open the 34th Annual Convention of the association at the Herring Hotel in Amarillo on Friday morning, April 9. The official program of the convention was mailed Tuesday to all members by Clyde W. Warwick, secretary. The convention will be one of the most interesting ever held by the Association.

Meyer Member of State Committee—Walker Is Delegate

Dr. A. M. Meyer, immediate past president of the Northwest Texas Conference for Education, is one of three members of the state executive committee of the Texas State Teachers Association. Other members from this district are Supt. Charles M. Rogers of Amarillo and Miss Alma Hall of Hereford.

Miss Darthula Walker will be a delegate to the State House of Delegates when the Texas State Teachers Association holds its fall meeting. She was elected by the Randall county unit. There will be 13 delegates from District 9.

A group of British and American sailors were swapping yarns about their ships. "I'm curious about your carriers," one British tar said. "How fast are they?"

One American turned his wad of gum over. "Well, to tell the truth, chum," he replied, "I don't know. We've never really opened them up. All they've been required to do so far is to keep up with the planes."

Canyon Air News

Hello, Folks:

This is Canyon's newest business enterprise greeting you from the West Texas State Flying Field.

The original flying field consisted of one hangar, one plane and one flying club—consisting of ten members. When the war came, upon consulting with Air Force and S. A. A. officials, the West Texas State Flying Field was born, on January 16, 1943. Our family is ever increasing, having started with Mr. and Mrs. James Cabe, clearance officers; Kenneth G. Fincher, Chief Flight Instructor, and the owner and operator of the field, George W. Cox. Added to the group since, were Gerald M. Gunther, of Arkansas, William W. Harrison, of Texas, T. Clarence Merritt, of Oklahoma, Alvin W. Harroun, of New Mexico, Orfa T. Mann, of Texas, and Anthony M. Vargo, of New Jersey.

Our records already show hundreds of flights have been made, and the ever-expanding flying program promises to be a huge success.

This short bit, we hope, will serve as an introduction to our group, and we expect to be with you every week from now on, with interesting news to keep you informed as to how we are progressing.

Until next time, then, we remain,

Yours sincerely,
The Gang in the Pilot House,
By George W. Cox, Operator.

THE STARS AND STRIPES WAS PROCLAIMED OUR NATIONAL EMBLEM IN JUNE, 1777.

IN SEPTEMBER, 1814, FRANCIS SCOTT KEY, HELD PRISONER BY THE ENEMY, WATCHED THE BOMBARDMENT OF THAT EMBLEM AS IT FLEW ABOVE FORT MCHENRY— AND SAW "BY THE DAWN'S EARLY LIGHT THAT OUR FLAG WAS STILL THERE."

"THE STAR SPANGLED BANNER," INSPIRED BY THAT HISTORIC OCCASION WAS LONG SUNG AND DEEPLY LOVED BY ALL AMERICANS... BUT NOT UNTIL 12 YEARS AGO— MARCH 1931—WAS IT OFFICIALLY PROCLAIMED OUR NATIONAL ANTHEM.

Miss Mary Katherine Sharp Becomes Bride of Lt. William O. Harris

MRS. WILLLIAM HARRIS

Miss Mary Katherine Sharp, daughter of the Rev. and Mrs. J. R. Sharp of Canyon, became the bride of Lt. William O. Harris, son of Mrs. Oscar Harris, 1721 Jackson St., Amarillo, Saturday at Fort Benning, Ga.

The single ring ceremony was performed by candle light at the Post Chapel at 6 o'clock.

The altar was decorated with baskets of white flowers and greenery. Miss Shirley Edmunds of Chicago, Ill., the bride's college roommate, was bridesmaid. She wore a pearl gray crepe dress with navy blue accessories and a shoulder corsage of gladioli.

The bride wore a street dress of pale green crepe, black accessories, and white gloves. She carried a white prayer book used in her parents' wedding, and wore a corsage of white orchids and baby's breath.

Lt. John R. Thompson of Bronxville, N. Y., served as best man.

The bride was given in marriage by her brother, John T. Sharp of Antioch College, Yellow Springs, O.

Mrs. Oscar Harris wore a powder blue dress with navy accessories and corsage of white gardenias.

A reception at the Officers' Club followed the ceremony.

The couple will be at home in Columbus, Ga.

The bride is a graduate of the West Texas Demonstration School, Canyon, and Park College, Parkville, Mo. She is an assistant instructor in the department of economics at Ohio University.

The bridegroom was graduated from Claude High School and attended West Texas State College. He was commissioned at the Infantry School at Fort Benning in May, 1942, and is an instructor there.

The bride visited in the home of her parents here recently.

MISS LOIS POOLE BRIDE OF LT. BEATTY

On Saturday, March 13, at 7 o'clock in the chapel of the Marine Post in Quantico, Va., Miss Lois Eloise Poole of Texline, became the bride of Lt. Carrol Ulmer Beatty of Clayton. Col. M. M. Leonard, Chaplain, read the ceremony.

The bride was attractively attired in a dressmaker suit of navy blue with a white lace blouse and wore an orchid corsage. She is the daughter of Mr. and Mrs. W. A. Poole of Texline. She has been teaching in the Clayton high school for the past two years. Mrs. Beatty is a graduate of West Texas State College.

Lt. Beatty is the son of Mr. and Mrs. Fred H. Beatty of Clayton, and is a graduate of the local schools and the University of New Mexico at Albuquerque.

They will live in Quantico, where Lt. Beatty has ten weeks of post graduate work to do.

LADIES AUXILIARY HAS LAST MEETING

The Ladies Auxiliary of the First Presbyterian Church, met Tuesday, March 23, for their last meeting this year.

The meeting was held in Randall Hall where the Rev. Robt' W. Jones addressed the assembly, reading Matthew 9:35-38. He spoke on the Stewardship of Prayer. His concluding remarks tended to inspire the membership to a fuller program of study and activity for another year.

As a climax to the year's study of Stewardship, a play was presented by Mrs. M. E. Cleavinger, Mrs. John Burgess, Mrs. Ed Harrell and Mrs. Robert Jones. The theme of the play was Stewardship, the most worthwhile interest in life. The setting was in a home. This bit of diversion added a touch of emphasis and was a fitting conclusion to the study of the year.

A. A. U. W. MEETING WITH MISS JEAN MOORE

HI NEIGHBORS!

W. T. High to Offer Fiesta in Observance of Pan-American Day

In preparation for Pan-American Day, April 14, the Senior Spanish Club of West Texas High School, assisted by several departments of the college, has begun production on a fiesta to commemorate the friendship and unity of ideas between the 26 republics. Native songs, dances and customs are to be brought out by gaily colored costumes, and by actors and actresses.

Probably never before in the history of this hemisphere has the understanding and the desire for knowledge been so deep-rooted among the people of the Americas. Not only has the official life of the American republics become more closely allied and cooperative, but the general public has given its wholehearted support to the unification of the continent, based upon the ideas of goodwill, freedom, and mutual respect.

Pan-American Day—the day of Americas—is observed on April 14, and the day has been set aside for special observances. On that date in 1890 the First International Conference of American States, meeting in Washington, adopted a resolution which resulted in the creation of the organization which is known today as the Pan-American Union. Another reason for the selection of April 14 as this great day is the fact that practically all the schools of the continent are in session at that time. The day is especially intended to appeal to the schools.

In the United States, the proclamation issued by the President directed that the flag of the United States be displayed on all government buildings on that date, and called upon the school, civic associations, and the people of the United States generally to observe the day with appropriate ceremonies.

From this idea started by the government, schools all over America have entered into the occasion with great spirit, and have presented to the public plays, pageants, radio presentations, and fiestas. W. T. High wishes to do its share of good will spreading; so, on April 14, in the auditorium of the Administration Building at 8 p. m., the students will do their bit and ask the public to join.

The Legislative Grapevine

By GRADY HAZLEWOOD
Senator 31st District

The early life of Lieutenant Governor John Lee Smith, who was recently a Panhandle visitor, should be an inspiration for any boy. Born of humble parents who homesteaded a small tract of land near Throckmorton, the present Lieutenant Governor lived from infancy to young manhood in a dug-out. He was nearly 15 years old before he had an opportunity to attend public schools. Now a deep student of history, a profound admirer of such characters as Abraham Lincoln, Thomas Jefferson, Sam Houston and other early pioneers of Texas history, the Lieutenant Governor charts his future upon the ideas and fundamental principles of these great men. After active foreign service in World War I he returned home and successfully ran for County Judge of Throckmorton county. He was elected to the state senate and, while serving his first term, he ran for his present office and was elected. Now he serves as a very able presiding officer of the Senate of the State of Texas. He is Grand Chancellor for the Knights of Pithias for the United States and Canada, and on one occasion conferred the rituals upon President Franklin D. Roosevelt.

Passed last week by the House of Representatives were the banking code and the remission of delinquent taxes bills. Passed by the Senate was the Manford Labor Bill, and also a bill by the writer which would compel the appointment of a new executive director of the Old Age Assistance Commission within ten days from the effective date of the Act. The bill passed by the vote of 24 to 0, which might indicate how the Senate feels toward this department. Also set for special order for next Tuesday morning is a bill by the writer which would freeze dues and assessments charged by labor unions at pre-war levels; would outlaw strikes or work cessations, and would make it a criminal offense for any representative of a labor union to make false representations concerning work or working conditions in order to induce prospective members to join.

With five members in the army, and needing 25 members present to suspend constitutional rules, it really places a great responsibility on the remaining 26 members to be continuously present. If more than one member is absent the whole senate is thrown out of gear.

Baptist Pastor to Preach on Prophets

Dr. Roy L. Johnson, pastor of First Baptist Church, will begin a new series of sermons Sunday night which he calls "The Prophets Speak." His first message in the series will be from Amos, "Worship that insults God."

One of the most neglected portions of the Bible is the section that records the messages of the prophets, Dr. Johnson believes, and he will do his best to interpret their message for these times. The night service begins at 8:15.

At the morning hour Sunday at 11:00 he will preach on "Ye are fallen from grace," which is a continuation of the messages from Galatians.

Sunday school will be at 9:45 with Virgil Henson as general superintendent. Attendance during March averaged 314. Training Union will be at 7:15, and a place is provided for all age groups.

Be Wise...

PLANT A VICTORY GARDEN

The one big thing you can do to help yourself and everyone else get enough food is to plant a Victory Garden.... The present food shortage is no laughing matter, as the people of Greece can tell you. But we are lucky; there are no invading troops in America to trample and destroy our gardens before they have reached maturity.

Be wise! Plant a Victory Garden for your own use in order that our farmers' crops may be used to feed our troops and allies.

We will gladly furnish information on home canning.

Transforming Pipe Organ Starts Monday

Work will be started Monday transforming the pipe organ in the Methodist Church. The organ is being electrified, and the console has been in Dallas for the past two months where this work has been done.

The organ expert will bring the console to the church and start the work of electrifying the balance of the organ. It will probably take about two weeks to complete the work here.

The pulpit of the church was remodeled pending the changes to be made in the organ.

NO RESTRICTIONS ON FOOD IN LOCKERS

Food in frozen food lockers may be used by farmers and other consumers without rationing restrictions. The total amount of perishable food stored in lockers in private homes, on farms, and in commercial plants is considered too small to justify the inconvenience it would cause all consumers either to have this food declared, or to place any legal restrictions on its use.

SOLDIERS BACK TO FARMS

The War Department has announced procedures by which soldiers, as individuals, may obtain discharges from the Army to return to their farms. Soldiers on active duty in the continental U. S., who are 38 years of age and over, may be discharged upon favorable consideration of written applications submitted prior to May 1, 1943. These requests must be accompanied by a letter or statement from local farm agents to the effect that the soldiers will be employed in essential agricultural activities if discharged from the Army. Such requests are made by the soldier to his immediate commanding officer. A soldier meeting these requirements will be discharged promptly unless his release will seriously affect the efficiency of his unit.

DRIVE AGAINST BLACK MARKETS

A total of 783 court actions against 1,025 individual defendants have been begun in the first two months of OPA's intensive drive to stamp out black markets in meat. Of the total, 149 were criminal actions against 246 defendants, and 634 were civil actions against 779 defendants. They charge wholesalers, packers and retailers with delivering meat for civilian use in excess of permitted quotas or selling it at higher than ceiling prices, or both.

FARM MACHINERY

The Government freeze on the last item of farm machinery needed for food crop production has now been lifted. Distribution directives for all haying and harvesting machinery are expected to be issued to manufacturers before April 15. Approximately 75 per cent of all types of rationed farm machinery, which was frozen November 1, 1942, has now been freed for distribution and local rationing through county war boards.

MORE FROZEN FOODS FOR '43

Expanded facilities for producing quick-frozen foods are expected to bring total frozen vegetable production to over 200 million pounds in 1943. The increase in output will be primarily to meet expanding requirements of the armed forces. Approximately 30 per cent of the production increase, however, will be available to civilian consumers, and will give them a total of about 180 million pounds—about 20 per cent more than in 1942.

RESTRICTIONS ON SEED POTATOES

Seed potatoes cannot be sold by retail stores for any purpose other than planting, OPA has announced. OPA has also ruled that seed potatoes must be tagged as such in sales at retail and cannot be sold by retailers in quantities of less than 50 pounds. Similar steps were taken by OPA March 18, 1943, at the country shipper and other distributor levels. The amendment became effective March 25 and is expected to help curb the potato black markets.

TIRE CERTIFICATES

Rationing certificates for tires and tubes may be used at any time convenient to the holder, according to a recent OPA order withdrawing the provision which limited the life of a certificate to 30 days after the date of issuance.

PRESSURE COOKERS FOR CANNING

About 150,000 pressure cookers will be produced for this year's canning season. Although that will be twice as many as were made in 1942, it is believed that demand will be far in excess of the supply. It is uncertain, however, whether more than 150,000 can be produced this year because of the scarcity of critical materials required in manufacture, such as metals and synthetic rubber rings required to seal pressure cookers.

SLAUGHTERERS MUST HAVE PERMIT

All livestock slaughterers who sell meat, who are not registered with OPA under meat restriction Order No. 1, including farmers and local butchers, are urged to get their permits early and avoid difficulties. Slaughterers must stamp their permit number at least once on each wholesale cut delivered after March 31. Permits to farmers in all areas and to local butchers and meat packers in small towns are being issued by county war boards. Farmers who slaughter animals for home use only need not obtain permits, but a permit is required for all meat sold. Slaughterers who sell meat must keep complete records of all livestock slaughtered.

STOVE PIPE SUPPLY LIMITED

Stove pipe will be obtainable only in limited quantities next winter, according to the War Production Board. Some precautions for saving pipe for next season are:

1. Clean pipe and remove rust with a wire brush, 2, Apply asbestos furnace cement to all small holes, 3, Carefully apply a good heat resisting paint, 4, Wrap in heavy paper and store through the summer in a dry place.

DEALERS TO GIVE "POINT INVOICES"

All dealers in foods covered by the meats and fats rationing program have been advised by OPA to give "point invoices" along with their customary dollar and cents invoices for products sold.

RECAPPED TRACTOR TIRES

Farm tractor and implement tires will be recapped hereafter only with material made almost entirely of reclaimed rubber, and replacements will not be issued for tires that are recappable, the OPA announced in a rubber conservation move.

JEFFERS URGES REDUCED SPEED

In a letter to state governors recently, Rubber Director William M. Jeffers stressed the importance of reduced speed in connection with the unrationed tire recapping program, pointing out that reclaimed rubber is now being used exclusively for this purpose. This material is more apt to fail and cause accidents if driven at higher speed than 35 miles per hour.

V-MAIL VOLUME INCREASES

Eighty-three per cent more V-mail was sent overseas during February than in January. For the short month of February there were 5,990,570 microfilmed V-mail letters as against 3,281,504 in January.

UTILITIES ORDER AMENDED

Liberalizing the provisions of order U-1-C, the Office of War Utilities announced that farms with a productive capacity of five "animal units" will now be eligible for electrical extensions. Previously a minimum of ten "animal units" was required. An extension of up to 100 feet is permitted for each unit, provided other conditions of the order are satisfied. Material in electric lines not now in service was released to utilities, for use in building short extensions permitted by the order.

News In Canyon 25 Years Ago

(Taken from the files of the Randall County News of March 28, 1918)

The First State Bank absorbed the Citizens Bank of Canyon, with the following officers: J. M. Black, president; J. W. Reid, L. A. Pierce, D. A. Park, R. H. Wright, vice presidents; Grady Oldham, cashier. W. D. Morrel sold his stock and will leave Canyon.

Four boys left for the coast artillery: Lewis and Harry Upfold, Mace Whitman and W. E. McKinney.

Judge Hugh L. Umphres granted a new trial for Leslie Noble, who was given a 35 year sentence in the penitentiary.

Gov. W. P. Hobby signed the bill for state prohibition. Texas will become dry on June 28. The Governor also signed the bill allowing women to vote in the coming primary election.

Miss Mary Hill of Moody, sister of Prof. J. A. Hill, became assistant librarian at the normal.

The Cemetery Association will meet in the Thompson Club room Saturday at 3 o'clock.

The chronic kicker, says Wright Aeronautical's Trade Winds, was complaining about the war-time airline practice of drawing the curtains on plane windows three minutes before landing and three minutes after take-off. About to disembark, he was grousing loudly against the "blackout." The pilot, coming down the aisle, tapped him on the shoulder. "You think it's tough on you?" he asked. "How about me, up there in the cockpit?" The passenger is still recovering from the shock.

Revival To Start Next Sunday

The Assembly of God Church will begin a revival Sunday, April 4, with Rev. M. M. Dudley, of Oxford, Florida.

Services will begin each evening at 8:15 o'clock. Everyone is cordially invited to come and hear this old time gospel preaching, and special singing.

Two rabbits escaped from an Army Medical Center experimental hutch and hit out over the hills, honeymoon bound. They had hopped only a short way when behind they heard the excited baying of beagles. Both stepped on the accelerator, then suddenly one stopped. "Look," said Mr. Rabbit, "we were born and raised in the Army. We're pretty tough. Let's wait right here and lick those babies." The coy rabbit bride blushed. "Let's wait until tomorrow, dear," she murmured, and outnumber them."

EXPERIENCED

The strong man at the fair had squeezed the juice out of a lemon.

Holding it up before the crowd he shouted: "I'll give $5 to anyone who can squeeze another drop of juice out of this lemon!

Up stepped a little man. He gripped the lemon and, to the surprise of the crowd, squeezed out several drops.

"It's easy," he murmured. "I'm a tax collector."

Rationing Program

(Continued from page one)

fruits and vegetables, bread and other bakery products, corn syrup, figs, jams and jellies, molasses, olives, peanut butter, pickles, potato salad, spaghetti and macaroni, spices and soft drinks.

There is no coupon rationing at restaurants although public eating places are restricted by OPA in their overall supplies of rationed items and many establishments may restrict portions accordingly.

Canned meats went on the market again, with point values corresponding roughly to fresh meat coupon costs.

Prunes, raisins and other dried fruits are off the rationed lists temporarily because of the danger of spoilage on grocery shelves in the warm months. Apple juice was made unrestricted because of a surplus apple crop which is expected by officials to be turned largely into juice.

In a special message to restaurants and other public eating places, OPA Administrator Prentiss M. Brown commended most of them because of reports that they were voluntarily trimming down their menus to fit the new rationing system.

"Although OPA does not dictate the manner in which their allotments of rationed food commodities are to be used," Brown said, "chop houses, restaurants, clubs, hotels and other public eating places that built patronage on the size and quality of their meat courses, simply will not be able, under wartime rationing, to continue to serve large steaks, or large portions of ham and thick chops."

OPA is cutting these places by 25 per cent or more on their usual meat purchases, and leaving the establishments to figure portions according to their own choice. However, the agriculture department is considering a specific limitation on the size of restaurant meals.

SIMPLE METHOD

Mrs. O'Dooley had twins. They were very much like each other; in fact, to the casual observer they were identical.

"Faith, Mrs. O'Dooley," said a neighbor one day, "I can't make out how it is you can tell them apart."

"Sure, and it's easy enough," was the answer. "Ye see, one has got his teeth and the other hasn't. So I sticks my finger into Pat's mouth, and if he bites I know it's Dennis."

Two ex-stilors had been partners in business for thirty years. But now the partnership was about to be dissolved. One of them lay dying. The sufferer called his friend to his bedside.

"I know I haven't much longer to live, old man," he said. "Before I go I've got a confession to make. During the years of our partnership I've swindled you out of thousands of dollars. Can you forgive me?"

"That's all right," said the other one cheerfully, "I poisoned you."

It happened at an income tax office in Washington. A colored resident, with his form all filled out, approached the "Pay" window and laid a quarter on the ledge.

"What's that for?" asked the clerk, who had read the total amount of the tax.

"Why that's for my income tax. They done told me I could pay a quarter at a time."

Telephone conversation, as reported by Wright Trade Winds.

Voice: "Hello, how are you this morning?"

Lady: "I'm splendid, thank you."

Voice: "Then I guess I have the wrong number."

Juniors Conquer Seniors Friday

Committee Assembles Victory Book Collection

Members of the Victory Book Campaign committee, from left to right, are: Sue Ann Moreman, Ellen Sanders, Tommy Thompson, Don Standley, J. Spencer Winn, and Miss Rhita Jean Sullivan, sponsor. This committee supervised a canvass of the town by the entire Victory Corps. All books donated during this campaign will go to some military camp or to a U. S. O. center.

LET'S DO IT!

Just nineteen days in which we must secure $676.10 in War Bonds and Stamps for the purchase of a jeep! Striving to attain the $900 mark, students in Canyon High have bought $223.90 so far in the drive. Dig deep into your pockets and purses and, come on, everyone. Let's buy this jeep!

Juniors—Intramural Final Victors

Juniors pictured above comprise the champion intramural basketball team for 1943. They are, left to right: back row, Lindsey Taylor, Dean Harbour, Bob Copeland, Charles SoRelle; front row, Merle Dickerson, Charles Hillier, John Lill, J. Ray Hunter, and Bobbie Dowd, coach. Raymond Graves also played with the group.

38-29 Score Is Final Tabulation

Eagle's Tale Editor Gives Varied Awards to Teams

As a dynamic climax to the Canyon High School intramural tournament, a team of juniors overwhelmed the senior squadsmen by a score of 38-29 Friday night.

Scoring two points at the first of the tilt, the seniors began a long, exciting course of scoring in which both teams participated. At the end of the first half, the game, under the refereeing of George Black, senior letterman, was still a close race; the score stood at 21-17 in favor of the juniors.

High Point Players

Leading the junior scoring with nine points to his credit was Lindsey Taylor. He was closely followed by Bob Copeland and J. Ray Hunter, with eight points each. Two seniors, Dana Persons and Billy Ray Boling, tied for high point man on the senior team.

Since the Press Club sponsored the final game, at the finish of this strenuous conflict, Martha Jean Dowd, editor of the Eagle's Tale, presented silver basketballs to the all-tournament team composed of Billy Ray, senior; Bob, junior; Ernest Frank, sophomore; Charles Taylor, freshman; Eugene Davis, eighth grade, and Tommy Hunter, seventh grade. This team lost to the lettermen in another game by a score of 44-13.

Team Receives Trophy

In a called assembly Monday, a trophy was presented to the conquering junior team, while a silver basketball later will be given to their coach, Bobbie Dowd.

Fighting for the junior cause were Bob, J. Ray, Lindsey, Merle Dickerson, Raymond Graves, Charles Hillier, John Lill, Dean Harbour, and Charles SoRelle.

Under the coaching of Max Bosley, the senior team was composed of Dana, Joe Ziegler, Billy Ray, Marvin Davenport, Arthur Duncan, and Elwyn Morton.

Six Canyon Grade School Music Classes Will Give Selections on Victory Program Tomorrow Night

Concert Numbers Include Piano and Vocal Pieces

For the purpose of selling Bonds and Stamps, the grade school will present a victory program tomorrow night at 8:30 p. m. Miss Mary Roberts will direct the program, which consists of some new songs as well as old ones.

Those participating will be the first grades with three numbers; second grades, three selections; third grade rhythm orchestra, three numbers; third grade class, three songs; fourth grade, two selections; fifth grade boys, two Spanish songs; fifth grade girls, two Spanish numbers; sixth grade boys, three numbers; sixth grade girls, two numbers; and the junior band, three numbers.

Piano selections will be played by Richard Sanders and Dorothy McReynolds; several vocal numbers will be given by Betty Jo Ponder, Bruce Winn, Albert Craig, John B. Lyons, and Robert O'Donald.

Selections for the program will include such pieces as "Star Spangled Banner," "America," "For Me and My Gal," "Marine Hymn," "Artillery Song," "Santa Lucia," "Little Fishes," and many others equally well known. Admission will be given any purchasers of Bonds and Stamps.

STAY WELL—CLEAN UP

In an hour when this nation and its allies need every possible aid in waging a global war against dictators and in defending democracy, we as civilians must not neglect home security. Since destruction by fire in America delays the march of our fighting men on the battle fronts, losses suffered by reasons of avoidable blazes are inexcusable.

To insure a maximum war effort, the American people must be supported at home by a determination to preserve that which they have, as well as by a pledge of unbroken production of war necessities.

Governor Coke R. Stevenson has designated the week of April 4-10 as the annual Texas Health and Clean-Up Week and has solicited the support of every citizen in this campaign. Before this drive can reach its highest peak, every resident must thoroughly clean his attic and cellar and add all articles salvagable to the stockpiles of production.

It must always be remembered that a fighting nation must remain healthy; a fighting nation must prevent fires! So let's join hands with Marvin Hall, fire insurance commissioner, and Governor Stevenson to make this Health and Clean-Up Week a beneficial one.

Classes Assemble Friday to Discuss Various Activities of Spring Season

By Manus R. Foster

To prove that girls can do almost anything boys can, feminine intramurals will be held next week. Subject: Volleyball. Purpose: Volleyball. Aim: Volleyball. Comment: May the best team win!

Any girl, regardless of whether she has lettered, is eligible, and the sponsors (whoever they may be) hope that much fun will be hed by all.

People of one type or another have been running since the beginning of time. However, only in the last two or three thousand years has running been boiled down to an exact science or taught as a school activity.

But it is a fact that the track season has opened and that running is on the rampage.

Spring brings about subtle changes in a man's make-up; it speeds up his motor, makes his feet want to move, urges him to fly.

If you feel any of these changes, you are urged to go out for track, to run for the greater glory of your school. Heil Hitler. APRIL FOOL!

Classes of Canyon High School assembled Friday to plan various spring activities.

Senior class members planned the week-end trip which they will take to Palo Duro Canyon, tentatively set for April 30. President Lila Mae Lill appointed committees to write the class history, prophecy, and will, which will be read in the senior assembly May 14.

While the juniors discussed the junior-senior banquet, the sophomores planned a picnic and selected a committee to make their flag.

After deciding to finance the cut for their special edition picture by having each student bring a nickel, the freshmen played games, Evelyn Garrison sang "There Was a Man Whose Name Was Corn," and Kathleen Hillier sang "You and I" and "Woodpecker's Song."

Both the seventh and eighth grades planned their flags. Seventh graders also discussed the assembly program which they will present April 16.

Students Choose Class Pennants

Freshman class members showed a larger percentage of Bond and Stamp purchasers than any other class during the last week; and as a result, the freshman flag is flying beneath the school's United States flag. The total school sales amounted to $97.25.

For a victory banner, the eighth grade chose a flag with three vertical stripes, one of which is red; one, white; one, blue. The letters C. H. S. are featured, one on each stripe with the figure "8" under the center one.

Other class flags which were not described last week are: sophomore—a blue background with "Sophomores" written horizontally across the top underlined with a "V" and . . . — in gold; and the seventh grade—a red, white, and blue flag with seven red and blue stripes, a white "7" in the center, surrounded by seven white stars, and a "V" and three dots and a dash under it.

Each group will be allowed to fly its flag beneath the United States flag when it attains a 90 per cent average of students buying Stamps and Bonds.

NO LEAD

A Negro funeral once was attended by a ventriloquist whose peculiar powers were not known to the others present. Another Negro told what happened at the semetery. "Well, suh," he reported, "when dey begins to lower Joe into de hole, he says, 'Let me down easy, boys.'" "Did they go ahead and bury him," asked a listener. "How de world does I know? I led de pack."

Cox Leads Typical Spanish Meeting

In a regular meeting of the Spanish Club Friday, the group formulated plans for a dinner. Helen Jo Cox led the program.

Juanita Anderson gave a report and Mary Alice Campfield, a Spanish reading. Ellen Sanders talked on "Vacation in Mexico."

"All things good and bad come to an end" typified the Spanish proverbs pantomimed by Helen Jo, Georgia Faye Holt, and Billy Jene Bonifield.

Manus Foster and Billy Jane sang "Amapola" as a special feature. The class sang other Spanish songs.

Classes Will View Nutrition Picture

Homemaking classes in Canyon High School tomorrow will see a nutrition picture, "Hidden Hunger," which is endorsed by the United States War Department. This picture, in which Walter Brennan acts, will be shown at all periods except from 11 to 12 o'clock and from 3 to 4 o'clock.

Townspeople and all students having study hall periods are urged to attend.

234 shopping days til Christmas.

Students Model Spring Clothes

Second Year Class Gives Tea for Various Guests

To complete a unit on clothing construction, girls in homemaking classes II and III, last Friday and Wednesday, modeled the garments which they have been working on for six weeks. Classmates and teachers of these girls criticized the garments.

In the second year classes, a majority of the girls made light suits for general wear, while others made tailored dresses.

Members of one second year class had as their guests their mothers, Supt. J. B. Speer, Miss Rhita Jean Sullivan, Mrs. Guy B. Tabor, and Mrs. A. K. Knott, to whom they served tea after modeling.

Having made dresses in their previous years in homemaking work, third year students experimented this year with the making of spring slacks and suits. Before beginning this study they had a demonstration by George Black on pressing slacks.

Members Create Business Agency

Organizing an employment agency for high school boys and girls who want part-time jobs was the business of Victory Corps members Monday.

Townspeople who have employment for high school students may notify Miss Rhita Jean Sullivan, Victory Corps sponsor. Miss Sullivan will then direct them to students who have registered with the agency.

After the business meeting, a picture show of Vice-President Henry A. Wallace's delivering a memorable speech was shown to the members.

"With the co-operation and help of students in the Victory Corps, I think we will complete organization of the different divisions next week," said Miss Sullivan.

School Is Showing Exhibit of Art

By displaying works of both old masters and modern painters, the Canyon High School will show a Colonial Art Exhibit for the remainder of this week in rooms 21 and 23. This exhibit will be open from 12 to 5 o'clock, and the price of admission will be 10 and 25 cents.

Miss Claryce Whitten, art teacher, is in general charge.

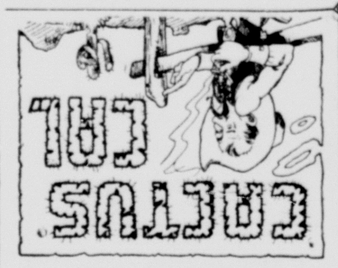
This collection consists of 150 masterpieces representing the French, Italian, Flemish, English, Dutch, Spanish, German, and American schools of art. Most of them are studied by the schools. Famous portraits, landscapes, marines, and pastoral scenes in the colors of the original canvasses are included.

Proceeds of the exhibit will be used to purchase pictures for the high school.

Private: "D'ye think they'll ever send me overseas, Sarge?"

Sergeant: "Not unless we're invaded."

Coach Sanders Awards Lettermen Jackets for Year's Achievement



Here I am, Wooch, the journalistic pooch. Pardon my dribblings; hope you can decipher my scribblings.

Manus Foster wanted to hear "Amapola." Manus REALLY wanted to hear "Amapola." So the Spanish class wanted Manus to hear "Amapola." Manus heard "Amapola." (By the courtesy of Billy Jane Bonifield.)

In recognition of their achievement this year, the Canyon High School basketball lettermen were presented their awards in a called assembly Monday morning.

Coach Milton Sanders presented jackets to Leslie Gordon, Max Bosley, Bobbie Dowd, George Black, J. Spencer Winn, Don Standley, and Manager Tommy Thompson.

Lettermen not present were Calvin Sanders and Speedy Wright, who graduated at mid-term.

Graders Blot Out Three Axismen

Because the students in Mrs. Roscoe Davis' second grade wished to stamp out Hitler, Hirohito, and Mussolini, they have purchased $56.40 in War Stamps since February 1.

Pictures of these three Axismen were exhibited on their bulletin board, and each time a student bought any amount of stamps he was given a block of paper the size of a stamp with his name and the amount he bought on it to paste on the poster.

To prevent these leaders' five senses from functioning well, the graders stamped out their eyes, ears, noses, mouths, and hands first; then they resorted to covering other parts of their faces.

Celebrating the completion of the stamping out campaign, Mrs. Davis conducted a popcorn party.

Freshmen Attend Skating Party

Providing entertainment for their first party of this semester, freshmen roommothers, Mrs. Guy Harp and Mrs. E. A. Bogart, and sponsor, Mrs. Cecil Simms, gave a skating party Thursday night in the grade school gymnasium.

After two hours of skating, refreshments of peanuts, punch, and candy were served to the 29 members present.

Coach Bobbie Dowd has made his boys:

Hunter, Dickerson, Copeland, Lill
His able cagemen is winners now.
Worked hard to push them up the hill.
Taylor, Axdal, Hillier, SoRelle.
These junior hoopsters "hooped" them well.
Graves and Harbour were pitchins too.
Say, juniors, we is proud of you!

Get your Thanksgiving Turkey early.

Evelyn Black, this is strictly for you. We wish you well 'till your health is new. We regret that you've had appendicitis; hurry back and you will surely delight us.

Summer School Plan Unchanged

Regular College Program Will Continue While Military Work Grows

Coming of military personnel to the campus will not affect plans for the Summer Session, which will open May 27 and last fifteen weeks.

The first, 9-week term will open May 27 and will close July 27. Classes will meet an hour daily. A normal load will be three classes of three-semester hours each. A second, 6-week term will open July 28 and will close September 4. In this term the normal load will be two courses of three semester hours each. In both terms, however, there will be many one and two-hour courses, many of them of a "refresher" nature. Second term classes will last 1½ hours each.

The curriculum spread will permit beginning freshmen and second semester freshmen to plan regular programs. Graduate work will, as usual, be stressed.

Summer features have not been announced.

"Henry, honey, I'm to be in our club's amateur theatricals. What do you think people will say when they see me in tights?"

"They'll probably say I married you for your money."

WORN SHOES

Along about now some of those winter shoes are looking rather shabby, but are much too good to discard.

Well, here's what you do —bring them to Worth's for reconditioning—soles and uppers—and they will give you months more wear. Remember, shoes are precious.

Return Officer Tells of Attack on Pearl Harbor, Dec. 7, 1941

Lieut. H. E. Hertner, a veteran of the sneak attack on Pearl Harbor, talked at the Rotary Club luncheon Tuesday. The Lions club joined the Rotary club in hearing this first hand report.

Lieut. Hertner, whose home is in Amarillo, left Pearl Harbor two weeks ago. He has appeared before several luncheon clubs since arriving, and develops his message thru questions and answers. He is an officer in the Coast Artillery, and therefore, the guns of his command were not in action when the Jap planes did so much damage.

The Japs did not realize they had done so much damage. They might have taken Pearl Harbor on that day had they known how much of the force was put out of commission.

Lieut. Hertner first knew of the attack when anti-aircrafe fire opened. He left his breakfast and a Jap plane flew not more than 20 feet above his head. Men only five feet from the officer fell from Jap machine gun fire.

The Japs are fanatic in their devotion to their leaders. They are stunt fliers, and when they come out of battle the pilots like to put on stunts. Their planes are not as good as American made planes.

Lieut. Hertner believes that America is being given war news as rapidly as it can be given out. Our navy won its victory in the Solomon Islands because of propaganda that we were afraid we would lose the islands, causing the Japs to send a large concentration of ships. Our navy was ready for the Japs when they came.

Pearl Harbor has been repaired. Only the Oklahoma has not been raised, but work is under way on this ship.

The officer does not believe the Japs had much inside help in their attack. He favors the enlistment of native born Japs who want to fight for this country. But he would send them to another front rather than to fight the Japs.

W. L. (Bill) Smith resigned from the club because of the change in his work. He introduced Charles Duval, who has become local manager of the West Texas Gas Co. Charles became a Rotarian at Post, and was secretary of the Levelland Club before being transferred to Canyon.

Nomination were made for candidates for officers to be held soon.

Visitors were E. E. Reynolds, Oran Thomas, F. R. Barnes, Horace Griggs, all of Amarillo; W. F. Teague of Dalhart; Stuart Condron, Jr. of Canyon.

V-NEWS

From Randall County Home Economists

Check up on your food habits. If you can answer "yes" to each of the following questions, you need not worry about your diet. It supplies all of the essential materials needed to keep you nutritionally well.

1. Do you eat three regular meals each day?
2. Do you use one quart of milk every day?
3. Do you eat two servings from the following foods each day: oranges, grapefruit, tomatoes, raw cabbage, raw turnips, or raw green peppers?
5. Do you eat a total of four servings of fruits or vegetables each day?
6. Is all white flour or white bread used "enriched?"
7. Do you eat two servings from the following foods each day: whole wheat bread, rye bread, whole wheat cereals, oatmeal?
8. Do you eat one of the following foods each day: lean meat, fish, chicken or other fowl, soybeans, or other dried peas or beans?
9. Do you eat 3 or 4 eggs a week?
10. Do you eat concentrated sweets in small amounts only at the close of a meal; never between meals when they will spoil your appetite for "protective foods?"
11. Do you get as much as 8 cups of liquid (water, milk, soup, etc.) daily?
12. Do you take time to thoroughly chew your food and relax while eating.

Did you score 100% on this check up? If you didn't, make a note of your shortcomings and work on those eating habits.

Why do we fly better than we eat? Why have we been so slow to use what we've learned about nutrition? Think of what has happened in aviation. Both of these sciences were in their infancy 40 years ago. Discoveries in both have been astonishing. Aviation has made use of its discoveries, while too much of our nutrition knowledge has been left in the textbook. It has been hard for us to break our old habits. When new knowledge bucks up against old habits, one or the other must suffer.

Freshman Team Is Undefeated

Coach Gus Miller Is Persisting in Belief It Is "Best Ever"

West Texas State's tree-topping Freshman team went undefeated in the nine games they played this year. The Frosh more than doubled their opponent's scores. West Texas first-year men scored 650 points to opponents' 308 points.

A set of twins led the Freshmen in scoring. They were the Box boys, Boyce and Cloyce, of Jonesboro. Boyce nosed out Cloyse for the coveted title of leading scorer by making 142 points to Cloyce's 136. Next came big Glynn Braden, a 6 foot, 5 inch youth from Dorchester. He scored 95 points. Other leading freshmen scorers were Metz LaFollette of McKinney with 61 points in seven games. Eugene Keating, a Fort Worth lad, was next with 58 points in six ball games.

It was late in the season before the freshmen could play any games other than substituting for the varsity in the Border Conference tilts. The freshmen did a great deal in helping the varsity win 17 of 22 games this year. While playing for the varsity, the Box boys again grabbed the scoring honors. Boyce scored 43 and Cloyce scored 21 points. Close behind was LaFollette with 19 followed by Braden with 16 and Keating with 10.

In a tournament held last weekend in Dumas the Freshmen team played three ball games in 4 hours to win. The highest margin of victory they have turned in is an 86 to 20 defeat over the Pampa Air Base quintet. A Dalhart Glider School team held them to the narrowest margin of victory in a 56 to 44 game.

Coach Gus Miller praised these freshmen by saying, "There is no doubt but what they are the best freshmen I have coached." Coach Miller is athletic director and head football and basketball coach. He came to West Texas State from Texas Wesleyan College to replace Al Baggett, who is now a captain in the Army Air Forces.

"Chat" Johnson Is Elected Captain of Post-War Cagers

Charles Johnson, junior guard, has been elected captain of Buffalo cagers for that day when the varsity squad reassembles for peacetime competition.

Johnson, of the famed Turkey brother combination (with Clark, a forward and center), scored 242 points last season to rank second only to "Deacon." Illness slowed him down at the end of the season. His set-shot prowess is widely known.

Johnson is a genial, aggressive fellow whose leadership is expected to be a big asset of the post-war club.

THE BULL THAT WILL NEVER GET TO AMERICA

His name is Rajah of Oaklands. Last we heard of him, he was on the Island of Jersey, a little spot of land in the Channel between France and England.

He's a great bull and breeders over here wanted him. He probably would have been imported except that one day the devils that "Heil Hitler" gobbled up the Channel Islands. Where is the bull and the fine Jersey cattle? Fate unknown. And the people — everything that they have labored for is in the hands of a devouring Germany.

This story repeats itself again and again in the wake of Axis conquest. We must remember it in the coming weeks and months in so many, many ways. One of the ways is by buying U. S. War Bonds.

You buy Bonds today for two important reasons. First, to help your Government win this war. Second, to help yourself. For they are an investment that never depreciates in value. They *increase* in value every year up to maturity, when they pay a third more than original cost. And you can always cash them any time after sixty days if you want to. *Buy Bonds*—at your bank or post office.

ANNUAL REPORT TO TELEPHONE USERS

A Summary of the Southwestern Bell Telephone Company's 1942 Annual Report, Recently Issued

"PEARL HARBOR" was only three weeks old as 1942 started, but already the telephone system had felt the first of war's pressing demands.

Most metals vital to war are also vital to telephone service. During the year we were able to get, for example, only a tenth of the copper normally needed.

Telephone people somehow had to make this bare trickle of materials meet demands for entire telephone systems at Army camps and Navy bases, for service to new war industries, for new telephones in thousands of homes.

Service held up rather well

The skill and "know how" of these people were in most cases equal to the job. During the year the company gained 123,689 telephones. It ended the year with 1,867,751 telephones in service. But in many cities, lines and equipment simply could not serve all who wanted telephones.

The quality and speed of telephone service held up rather well during the year. There were exceptions, of course. On many crowded long distance lines delays were unavoidable.

It was inevitable, in such a year, that some new high marks as well as some low marks should be set.

For example, the money taken in by the company for its services was 120 million dollars—11 per cent above 1941. That seems a lot of money.

Expenses mount faster than revenue

But expenses climbed even faster. They jumped from a little over 88 million dollars in 1941 to more than 101 million dollars—an increase of 15 per cent. Most of this increase was a result of sharply higher payrolls and taxes. Taxes grew from slightly less than 20 million dollars in 1941 to more than 24 million dollars.

The result was that the company matched its high record with a low.

Earning rate lower than in depression

The company's earnings for the year were at the rate of 4.4 per cent on the money it has put into the buildings, wires, and equipment needed to furnish telephone service—a lower rate of return than at the lowest point of the depression.

On the whole, telephone service was better in 1942 than telephone people had dared hope it would be. This was due in large part to the competence and fine spirit of service of the telephone men and women in the Southwest. It was due also to the understanding and sympathetic co-operation of the people who use the service.
